

ECOBEN B-R100CT | 100% POST-CONSUMER RECYCLED CORE, TRANSPARENT FACINGS

Specifications

HONEYCOMB CORE:	100% recycled paper cardboard honeycomb w/ corrugated layers, natural color
FACINGS:	Clear Transparent (CT) Clear Satin (CS)
DIMENSIONS:	39.4" x 118.7"
THICKNESS OPTIONS:	13/16"; 1 3/8"; 2 3/16"

Fabrication Options

ClearConnect™ Wall System (hardware-free, looks seamless, saves installation time) [VIEW ONLINE](#)

Snap™ Wall and Ceiling System (removable panels, prefabricated to save time and labor onsite) [VIEW ONLINE](#)

Sustainability

100% POST-CONSUMER RECYCLED PAPER CORE

MORE STRENGTH:	Honeycomb offers exceptional durability and deflection-resistance, increasing overall life cycle, reducing the material needed for structural support and the time and labor needed for installation.
LESS WEIGHT:	ECOBEN panels w/ PETG average 1.45 lbs/sf, or 43 lbs/panel; w/ PMMA, 1.85 lbs/sf, or 55 lbs/panel
LESS MATERIAL:	70-80% less raw material used to make ECOBEN than resin sheets of comparable thickness
LESS TIME:	Lightweight, deflection-resistant panels with installation-friendly details save significant labor onsite
